Abstract

The report for the final project should be submitted by the **12th of June, 2026, 23:59**. The template should follow the current Latex file (originally from NeurIPS 2025 template), and you should not change the format, e.g., font size, margin size, or any other formats that affect the length of your report. The maximum length of your report is **3 pages**, and additional pages are allowed only for references. Also, the report should be written in **English**. Please change the title (DeepLearning - Final Report) to your own topic/title. Your report should contain the following contents. **1) Abstract, 2) Introduction, 3) Method, 4) Experiment, and 5) Conclusion.** **The *novelty* and *contribution* of the proposed project should be well argued and supported by experiments. The report should also be clearly written with valid results.**
